Project file structure.

This is short summary of this project's file structure, inspired by Chris' R blog <u>post</u>. Please refer to the post for more detailed description

1. **<u>RecommenderSystem</u>** Home to the main executable file. This will likely house the main ensemble prediction function, produce the output and Rmd file.
   1.1. **<u>Src</u>** Source r scripts. Holds each recommender system (user based, item based, etc..)
   1.2. **<u>Data</u>**
      1.2.1. **<u>Raw data</u>**
      1.2.2. **<u>Processed data</u>**
   1.3. **<u>Papers</u>** Any useful project related papers
   1.4. **<u>Output</u>** all output files. (plots, pdfs, rmd outputs etc.)
